Job type:
remote, full time, contractor, part-time or relocation

Hi, my name is Renat.
I'm a full stack web developer with over 16 years of professional experience. Focus on sustainable web application architecture using Ruby on Rails, modern JavaScript and responsive HTML/CSS.

My main specialization is Backend and Frontend for web applications.

- I'm a creative and results motivated developer with a lot of experience in remote and contract work
- Extensive experience in web application development
- Good expertise in using Ruby/Rails on a production Linux environment
- Outstanding knowledge of SQL
- Amazing ability to work on a very technical team who have deep knowledge of Linux, Ruby, Ruby on Rails, JavaScript, SQL
- Remarkable ability to multi-task and adapt to changes quickly

Skills

Ruby, Ruby on Rails, RSpec, Minitest, Capybara, Capistrano, JavaScript (ES6, Flow, TypeScript), CoffeeScript, ReactJS (MobX, Functional Components, Hooks, Context), Svelte, Jest, Enzyme, MySQL, PostgreSQL, MongoDB, GIT, Ansible, AWS, Heroku. Interested in Elixir and Clojure languages.
